

A photograph of a modern backyard fence. The fence is made of dark metal posts and light-colored vertical slats. In front of the fence is a gravel garden with several small green bushes and a young tree. A green lawn is visible to the right of the gravel garden. The background shows mountains under a blue sky with some clouds.

Product Catalog 2024

A photograph of a white vinyl fence. The fence is made of vertical panels. In the background, there are various trees and bushes, including a tree with red leaves. The sky is blue with some clouds.

Royal Guard Ornamental Steel Railing

by Alliance

Royal Guard Rail is the perfect ornamental railing option for decks, porches, patios, balconies, and more. Our 100% pre-galvanized and powder-coated steel railing provides a clean, classic appearance and is virtually maintenance free!

This exceptionally low-maintenance railing is more durable than aluminum and is corrosion resistant. Added UV inhibitors allow for a long lasting finish.

Royal Guard Rail brackets quickly mount to panels and posts for a no-weld installation. Our intuitive hardware design allows for easy attachment to wood or composite posts if desired for a distinctive look.

Rackable panels adjust manually for installation on stairs or other sloped surfaces.

SimTek®

BY Barrette
OUTDOOR LIVING

SimTek is a rotationally-molded polyethylene fence with a realistic wood or stone appearance and an exterior that is virtually maintenance free, with no painting or staining required. Durable and impact resistant, SimTek also provides an excellent sound barrier, blocking 98% of direct sound. Internal steel reinforcement allows high wind resistance.

As an authorized SimTek dealer, Alliance Fence and Supply can provide you this innovative fence product at some of the best prices in the market.

Trex Fence is a great option for those who want a privacy fence with a natural look that can also withstand the elements. Trex Fence is wind-resistant, sound-blocking, and requires no painting or staining. Its unique board-on-board design, available in 3 natural colors, prevents warping and bowing while creating a beautiful, identical look on both sides of the fence.

Trex Seclusions

Saddle

Trex Seclusions Horizontal

Winchester Gray

Trex Horizons

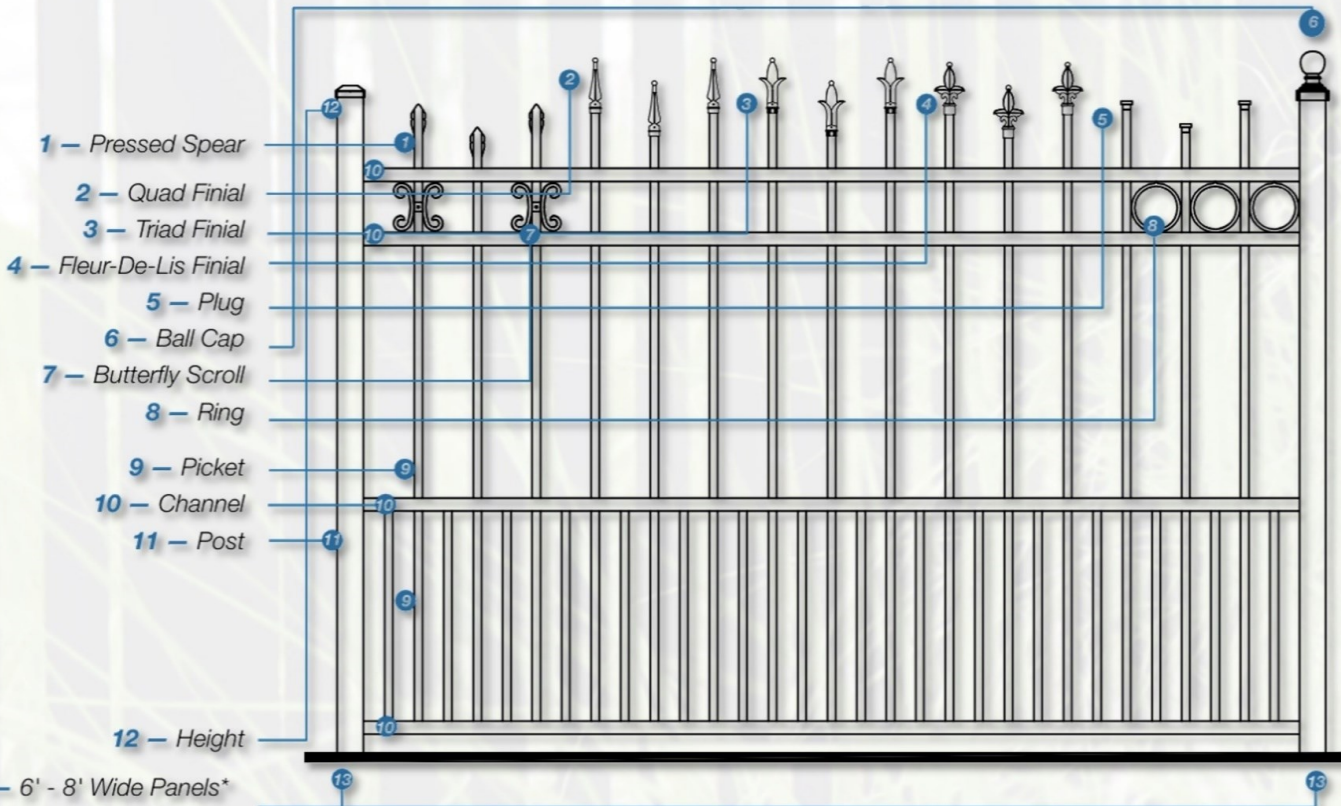

Woodland Brown

The weathering process: As sunlight interacts with plastic, it will cause the surface to lighten. Trex compensates for this natural phenomenon by over-pigmenting its material during production. This allows the composite to weather to a lighter value over a short period of time. This is a limited transition. Trex will retain color throughout its life.
